

# DAMPING ASSEMBLY GUIDE

FOR PIXY SM

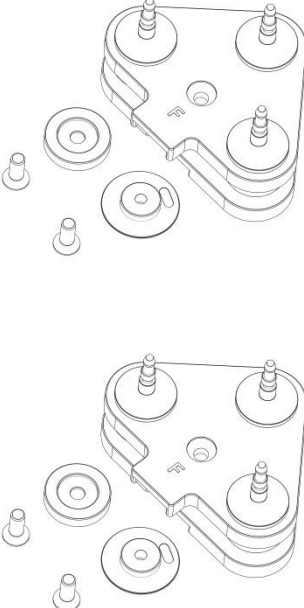

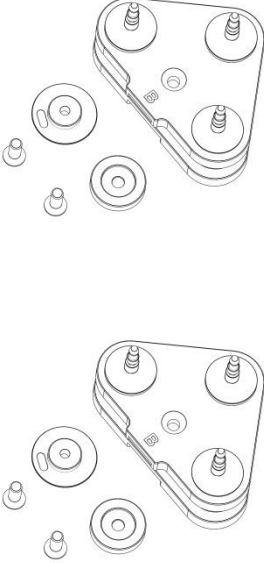

**\*Components required:**

- DJI - Standard damping on M300 RTK
- Gremsy - Damping extension for Pixy SM

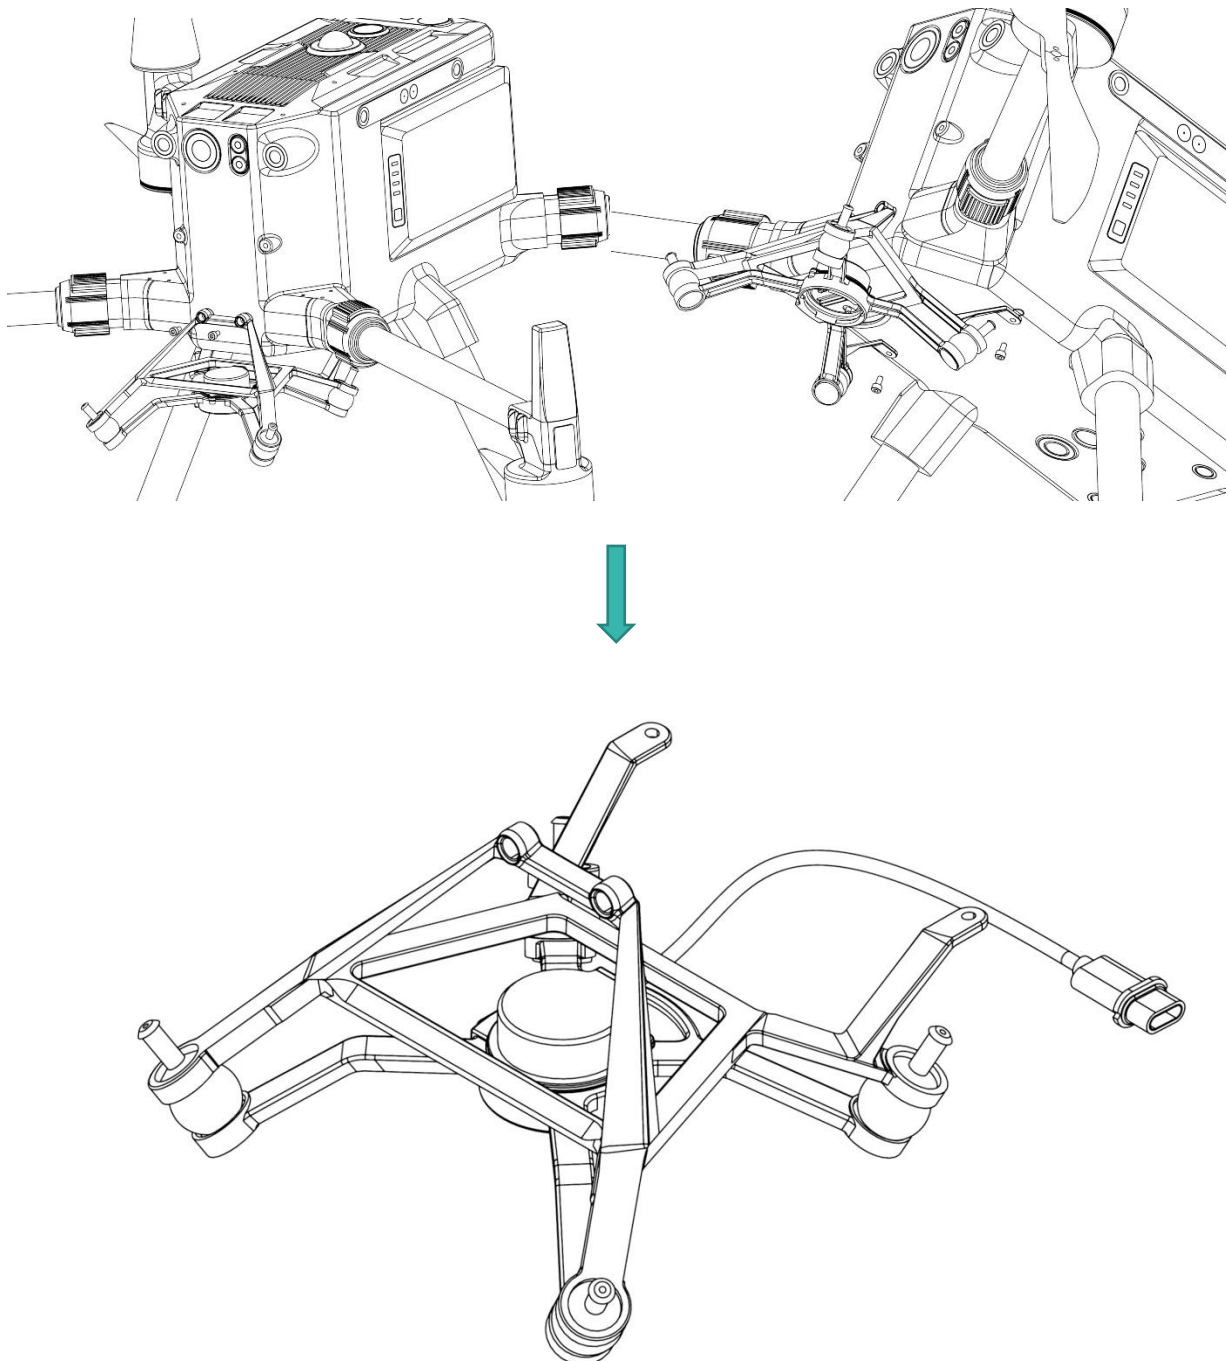

**\*What's in the box of the damping extension?**

<p><b>F - Adapter bundle x2</b></p>	
<p><b>B - Adapter bundle x2</b></p>	

## ASSEMBLY INSTRUCTIONS

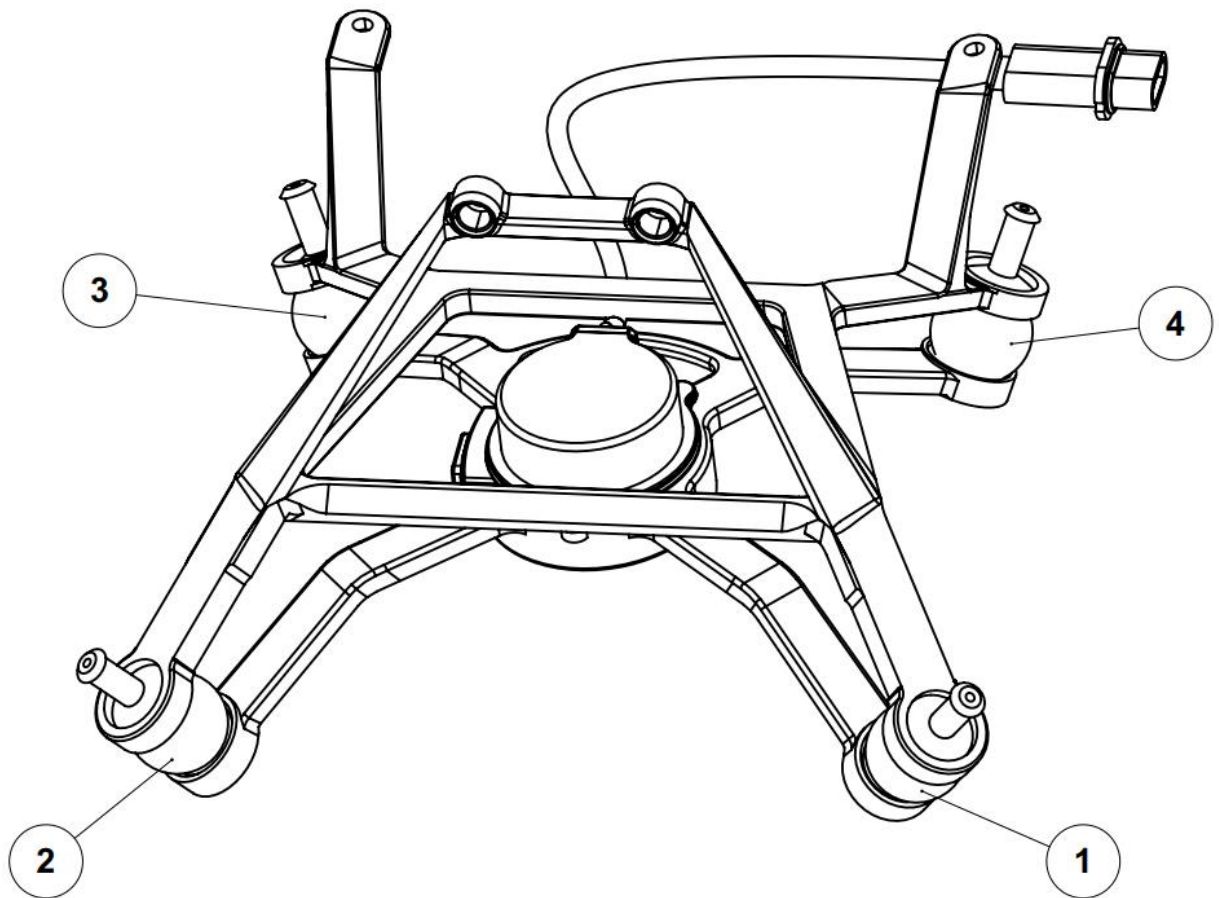

**STEP 1:** Separate the standard damping from the M300 RTK.

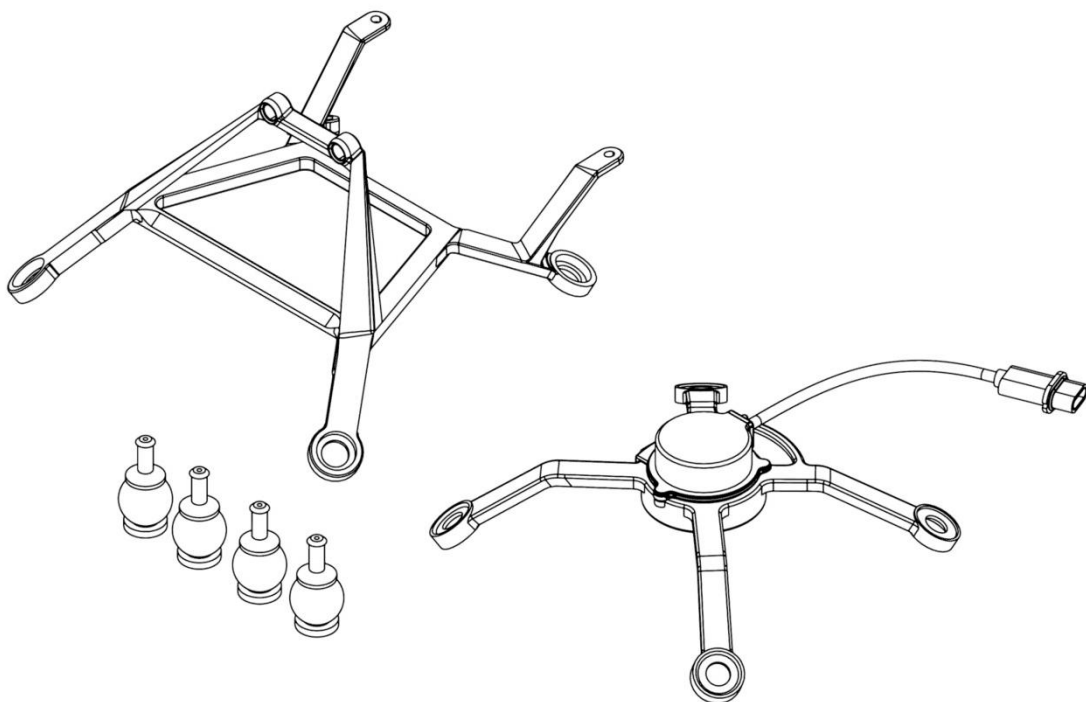

*Fig 1. The standard damping after separation*

**STEP 2:** Note the marked position of the standard damping as below.

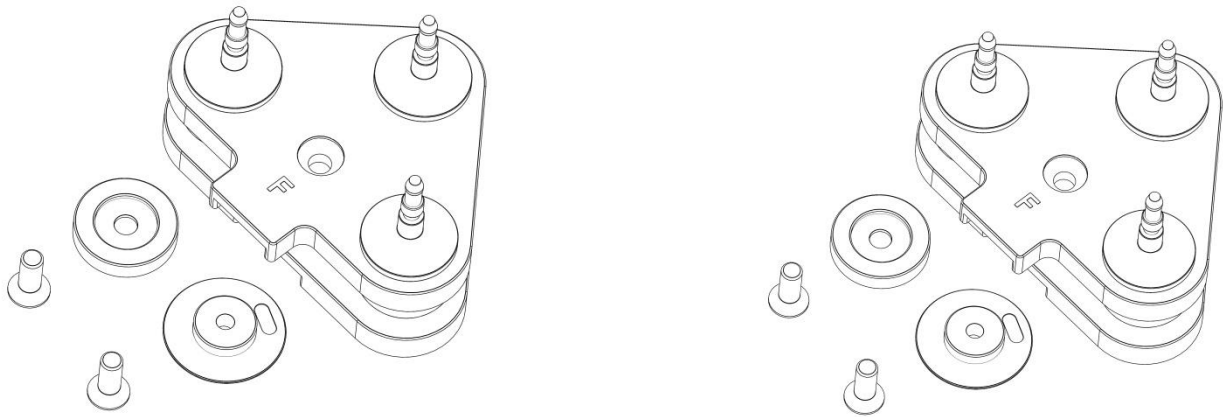

**STEP 3:** Remove silicone balls from the standard damping.

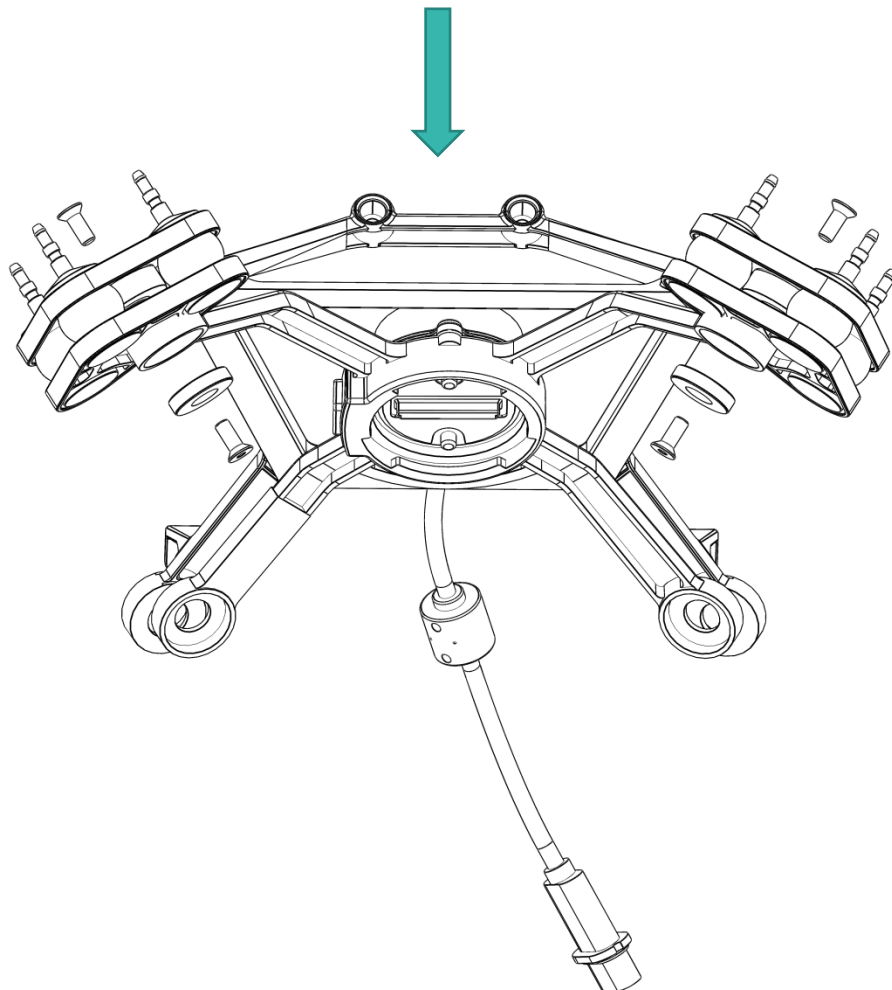

**STEP 4:** Assemble the “long-tail adapter bundles” into the “position 1 & 2” as marked in step 2.

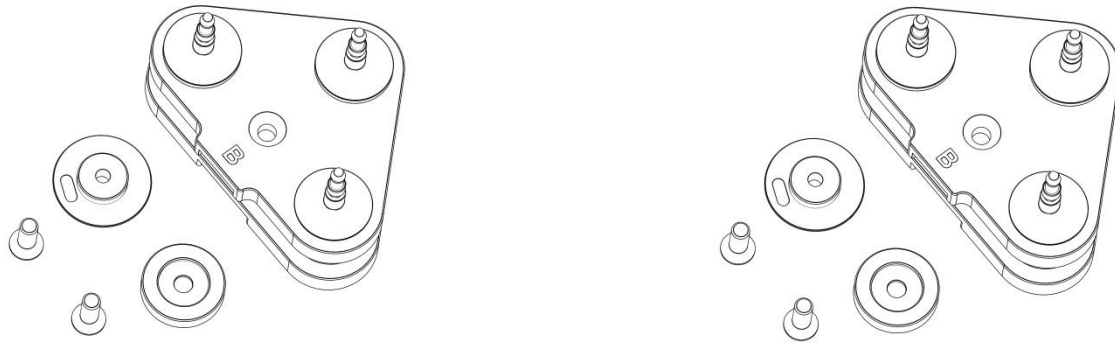

*Long-tail adapter bundles*

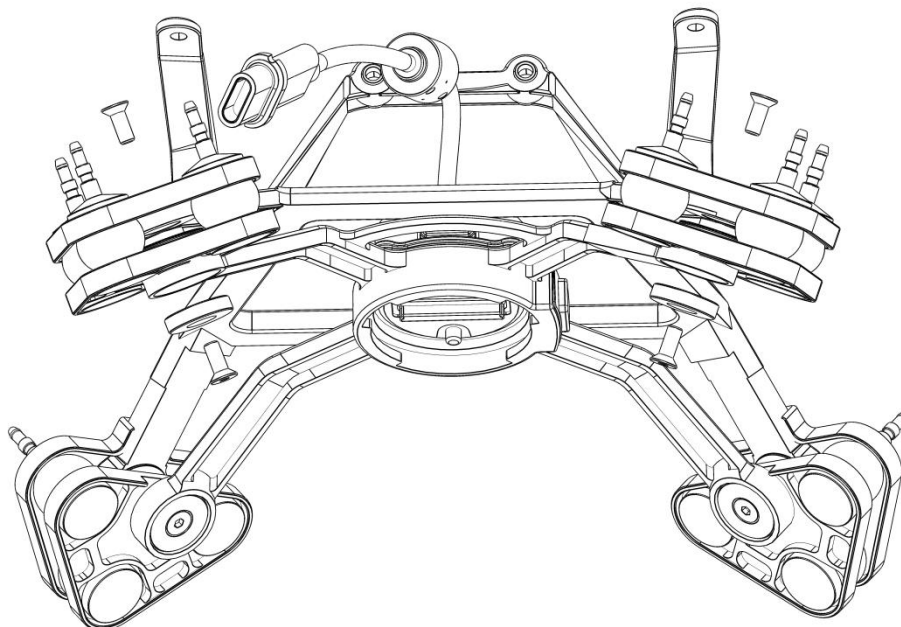

**STEP 5:** Assemble the “short-tail adapter bundles” into the “position 3 & 4” as marked in step 2.

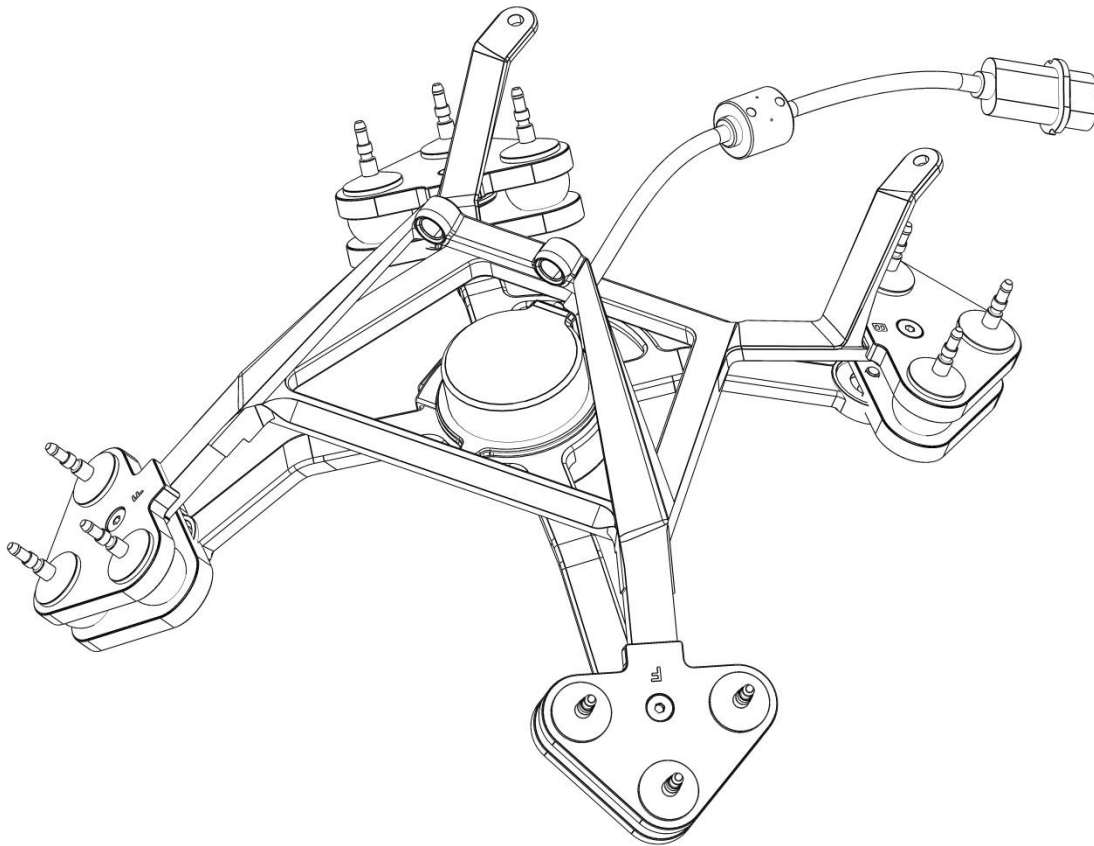

*Short-tail adapter bundles*

**STEP 6: Complete the damping for Pixy SM.**

**STEP 7: Mount the damping on M300 RTK and ready for use with Pixy SM.**
