Distribute
commercial products
through online retail
store and dealer
systems worldwide.

Company History & Milestones

Foundation of Gremsy

- Gremsy was founded on April 13th, 2011 by Vietnamese engineers as an aerial video-photography service provider.

Initial Products

- Focus on R&D activities to launch Gremsy H10 and H14.

Cinema Focus

- Launching Gremsy H3, H6, H7, and H16 for professional film market.

Shift to Industrial Products

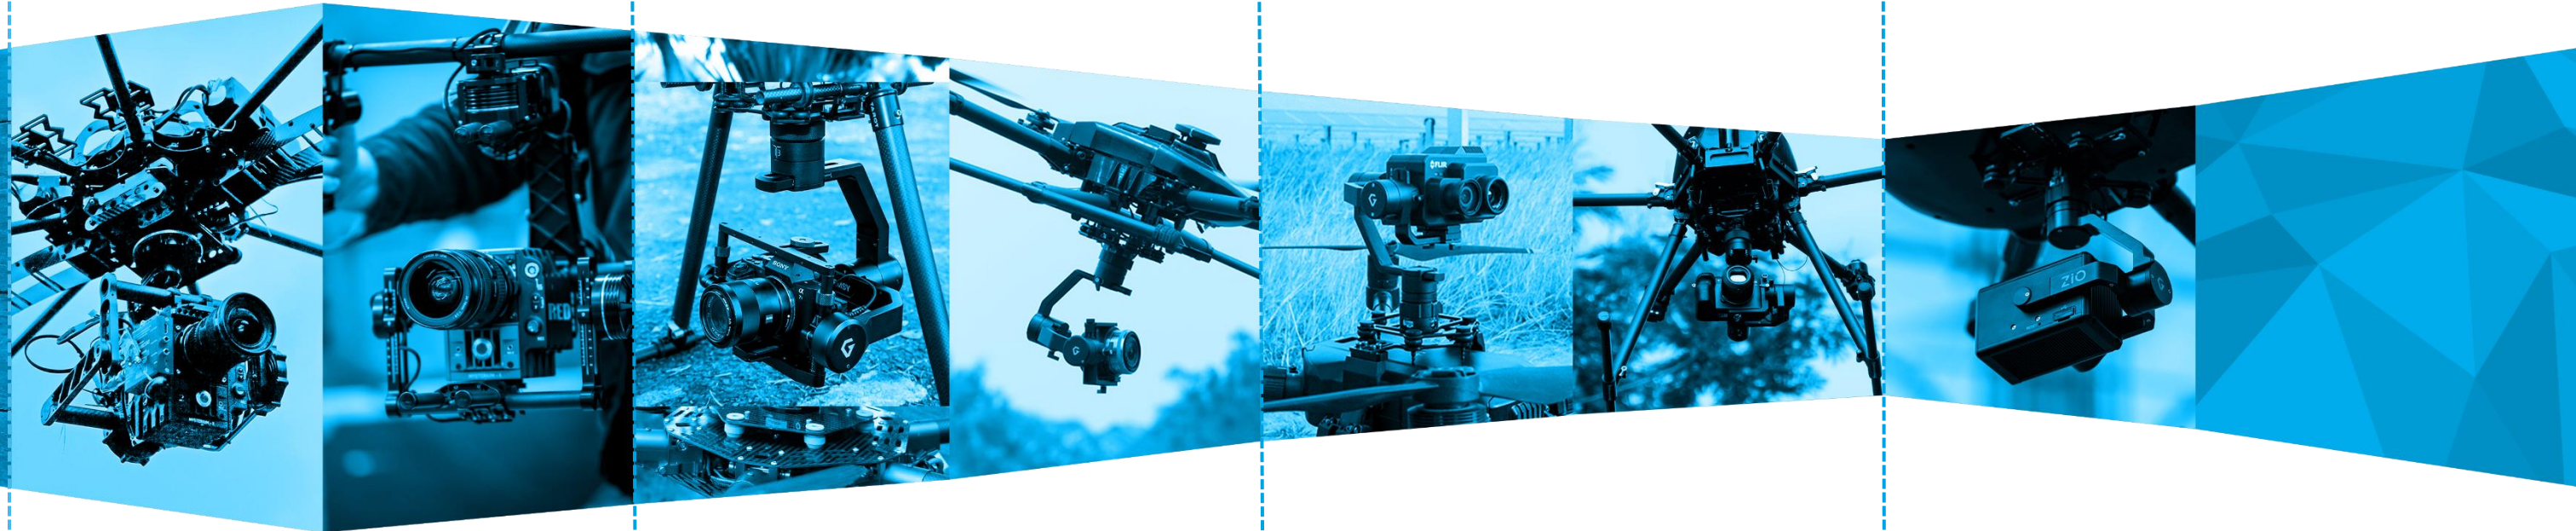

- Gremsy shifted its focus to industrial products, launched high-grade quality products: T3, S1, Pixy F, Pixy U...

Product Enhancement

- Deploying many custom gimbal projects for big partners Sony, Phase One, Ofil...
- Launching upgraded versions of Gremsy T3, S1, T7 and the new line up Mio.

Accelerated expansion

- Focusing on payload integration solution for industrial sectors.
- Launching the first carbon gimbal – Aevo
- Launching the first payload – Zio

2011 - 2012
